Bombardier CRJ100/200 and CRJ700/900 Maintenance Type Ratings Now Available From Swiss Aviation Training

The Swiss Federal Office of Civil Aviation (FOCA) has confirmed the EASA Part 147 approval of Swiss Aviation Training as a provider of maintenance type rating training for the Bombardier CRJ100/200 and CRJ700/900 aircraft types.

These latest EASA approvals will enable Swiss Aviation Training (SAT) to further expand its training services portfolio. SAT now holds the full range of maintenance training approvals for the various jet aircraft used on regional air services around the world. The company already offers B1, B2, combined B1+B2, C, A and Level 2 technical training courses and practical...
