## SWISS AVIATION TRAINING OFFERS NEW WEB-BASED TRAINING

Posted on Tue, 01/26/2010 - 18:00, by jason

Swiss AviationTraining now offers fuel tank safety training for aviation maintenance personnel via its new Learning Management System elearning facility, which it has developed in collaboration with infoWERK Multimedia GmbH. The new courses are available via the Swiss AviationTraining website at [www.swissaviation-training.com/xxxx](http://www.swissaviation-training.com/xxxx). The new Learning Management System is a joint development by Swiss AviationTraining (SAT), which has contributed its many years of experience and extensive expertise in training pilots, cabin attendants and technical personnel, and its specialist software pa...
